FORMATION

E.E.S.T N°7 - Avellaneda, Bs. As. / Mar. 2013 - Dec. 2019
Completed Senior High School (HTL) with a degree as a
Programming Technician.
(Graduation: December 2019)

EXPERIENCE

Full Stack Developer - Synology / April 2023 - August 2024

Developed and maintained internal Synology support tools extensions for Chromium and Firefox, along with their back end services.

Stack: JavaScript, Node.js (Express, MongoDB), Python (FastAPI), Docker.

Data Protection Team Referent - Synology / Jan. 2022 - April. 2023

In addition to previous responsibilities, served as the team referent for the backup team, overseeing training material for new employees, handling critical cases for high-end customers, addressing complex issues to support the team, and analyzing the quality of escalations to R&D.

Data Protection Technician - Synology / Aug. 2020 - Dec. 2021

Provided technical support for NAS and cloud storage at a market-leading company. Managed Linux (shell), Windows, and MacOS environments, delivering solutions and troubleshooting hardware and software issues for both home users and enterprise clients with large user bases. Effective problem-solving and clear communication of technical situations were essential aspects of the role.

Web Developer - Asociación Civil Emanuel / Jan. 2017 - Mar. 2020

Web development in PHP, multimedia projection, audio and video recording and editing, branding and logo design.
