FORMATION

E.E.S.T N°7 - Avellaneda, Bs. As. / Jan. 2012 - Dec. 2019

I have finished my Senior High School year with a Programming Technician degree.

EXPERIENCE

Software Developer - Synology / April. 2023 - Present

Development and maintenance of internal Synology support tools extension (Chromium / Firefox) and their backend services.

Stack: JS, NodeJS (Express, MongoDB), Python (FastAPI), Docker

Cloud Backup & Sync Team Referent - Synology / Jan. 2022 - April. 2023

On top of previous responsibilities, being team referent for the backup team meant taking care of the training material for new employees, crucial cases from high-end customers, being available to take on any complex case to alleviate the charge of the team and analyzing quality of escalations to HQ and to the development team.

Cloud Backup & Sync Tech Support - Synology / Aug. 2020 - Dec. 2021

Technical support for NAS and cloud storage for market leading company. Worked on Linux (shell), Windows and MacOS environments, providing solutions and troubleshooting for both hardware and software in order to help from house users to big clients with hundreds of users.

Problem solving and the ability to communicate technical situation in a intuitive way is a crucial part of the job.

Web Developer - Asociación Civil Emanuel / Jan. 2017 - Mar. 2020

Web development in PHP, multimedia projection, audio and video recording and editing, branding and logo design.

CURSES

AWS Cloud Practitioner - IT College / 2022

Completed AWS Cloud Practitioner formation.
